ROYAL COLLEGE OF DENTAL SURGEONS OF ONTARIO

OFFICE OF THE DEAN

45 GLEN AVE,
Toronto, Feb18th 1919.

Mr. Robert Falconer,
Presidento of
The University of Toronto.

Dear Sir:

Among the resolutions passed at a conference of University presidents and representatives of the Great War Veterans Association with the repartation commitee held in Ottawa On Tuesday Jan 14th 1919 appears this resolution-: That in the op nion of this meeting men should be selected by the department of civil re- establishment on the recommendation of the University or College concerned ,such Universities, College being now entitled to representation in the conference of the Universities of the ~~department~~ Dominion. As I understand it only Universities or Colleges having the degree confering power are entitled to representation in the conference of the Universities of the Dominion. If this be true then students of all Colleges outside of the Universities mentioned are not eligible for participation in the benefits given by the Government . Among such schools or Colleges may be found the school of Dentistry , the school of pharmacy, the vetrinary school,and the law school of Toronto, and perhaps the agricultural College at Guelph.

OFFICE OF THE DEAN

I am speaking now more directly in the interests of the studentss of the school of Dentistry of The Royal College of Dental Surgeons of Ontario. It is possible however, inasmuch as such students register with the University during the first year of their attendance at the school , that they might be for the purposes of this regulation ~~be~~ classified as students of the University of Toronto. I should be glad to know if this is a correct interpretation.

Yours Sincerely,

Dean. A.R. Webster

February 19th, 1919

Dr. A. E. Webster,

Royal College of Dental Surgeons,

Toronto.

Dear Dr. Webster:

I should think that there would be no difficulty in the dental students being selected by the University of Toronto for special treatment in regard to their courses by the Department of Civil Re-establishment. They are now all registered in the University. I should imagine that even the affiliated colleges might come under the same regulations though their students are not so closely related to us as yours are.

Yours sincerely,

President.
